

Catch::Generators::
FilterGenerator::FilterGenerator

```
graph LR; A["Catch::Generators::  
FilterGenerator::FilterGenerator"] --> B["Catch::Generators::  
FilterGenerator::next"]
```

A diagram showing a transition from a class to a method. On the left, a white box with a black border contains the text "Catch::Generators::FilterGenerator::FilterGenerator". A blue arrow points from the right side of this box to the right side of a gray box on the right. The gray box contains the text "Catch::Generators::FilterGenerator::next".
