

Catch::CompactReporter
::testRunEnded

Catch::ConsoleReporter
::testRunEnded

Catch::printTestRunTotals

```
graph LR; A[Catch::CompactReporter::testRunEnded] --> C[Catch::printTestRunTotals]; B[Catch::ConsoleReporter::testRunEnded] --> C;
```

The diagram illustrates a control flow where two different test run ended events trigger the same function. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'Catch::CompactReporter::testRunEnded' and the bottom box contains 'Catch::ConsoleReporter::testRunEnded'. Blue arrows point from the right side of each of these boxes to a single gray rectangular box on the right. This gray box contains the text 'Catch::printTestRunTotals'.
