

```
Catch::StringMaker  
< std::chrono::duration  
< Value, std::ratio< 60  
> > >::convert
```

The diagram illustrates a function call. A grey box on the left contains the code for `Catch::StringMaker::convert`. A blue arrow points from this box to a white box on the right, which contains the code for `Catch::ReusableStringStream::str`. A curved blue arrow above the white box indicates a self-call or a recursive call to the same function.

```
Catch::ReusableStringStream::str
```
